WHOLESALE
SEASON OF
1931-32

HARROLD'S
PANSY GARDENS

P. O. BOX 264 GRANTS PASS, ORE.

MIXED COLOR VARIETIES

NOVELTIES

Harrold's Pedigreed Pot Pansies:
This Harrold origination has been highly praised by many growers who have used it, and received a special award of merit last winter, at The National Mid-winter Flower Show. They are of short compact habit, bearing flowers of really giant size in a fine range of colors.

Harrold's Pedigreed Cut Flower Pansies:
This strain has been bred to the exacting demands for a Pansy that fills the cut-flower requirments of size and color; produced on long stems. A good indoor forcer, and an excellant profit producer in any active market.

Strong seedling plants: $2.00 per 100; $18.00 per 1,000.

GROUP "A"

Harrold's Azure Giants:
A blue companion to our Ruby Giants introduced last season. It is a brilliant, glowing blue that is so popular in formal plantings. Just a shade darker than Azure, with dark bloched center. Plant habit compact, medium tall; upright. Profused flowering.

Harrold's Ruby Giants:
The coloring of this variety is almost beyond discription, there being a marked tendency toward the red, pink, salmon, and orange shades. While a few purple, blue, and yellow flowers are produced, white is almost never found. Flowers are mostly of the five bloched type, and of course of *super-giant* size. Plants are compact, medium tall, upright, and free flowering.

Harrold's Pedigreed Giants:
Undoubtedly this variety is among the finest Pansies now on the American market. It is of low bushy, up right habit, with the flowers born on long heavy stems well above the foilage. The flowers are of *super-giant* size which we do not belive is excelled among the zoned or face types. Coloring is of the greatest possible range, and like our other strains it is espeically free flowering, producing a profussion of flowers at a season of the year when many strains are dormant; as well as being among the first to flower from seeds. Our most popular variety!

Strong seedling plants: $1.00 per 100; $5.00 per thousand; three thousand $14 00; five thousand $22.00; ten thousand $40.00.

Transplanted plants: $1.75 per 100; $14. per thousand; three thousand $38.

OUR PANSY PLANT SERVICE

Again we announce the opening of another Pansy plant seoson with the most complete line we have ever offered. Large plantings, superior growing conditions, really modern packing, and over a quarter century experience in producing and shipping, coupled with the fact that we are growers of Pansy seeds in large quantities for the trade, enables us to supply quality stock and service that can't be excelled.

With restricted buying, especially of more expensive bulb and bedding stock, Pansies are due for a season of as haavy a demand as they have experienced in several yeors. Be prepared to take advantage of this demand by hoving an adequate stock of reolly quality Pansy plants well grown and displayed. You will find too, that nothing will attroct quite so much attention to your grounds in spring, as a conspicuously displayed bed of Pansies. Well grown, and displayed Pansies always sell well.

We supply only strong, heavily rooted, field grown plants, that will give absolute satisfaction. Our shipping season is not intrupted during the winter, and we maintain forty-eight hour shipping service. Packing is light and strong, and your order will be given personal attention.

GROUP "B"

Harrold's All-American Bedding Mixture:
As the name implies, this is a mixture of all the best types being grown by American specialists. 80% of this mixture is composed of Harrold varieties, while the other 20% is composed of varieties originated by other American specialists – the seeds of which are grown in our test gardens annually. Without question this mixture containes the widest range of colors, and types obtainable in a single mixture today.

HARROLD' Improved Swiss:
With the increased popularity of the bloched type of Pansy, no grower can profitably be without this variety. We have carefully developed the desirable features of this strain, while by close breeding we have eliminated many that were not so desirable in the original Swiss strains. The color range is strong in the dark shades, especially in the red and blue, The flowers are well formed, and very large.

Strong seedling plants: 80¢ per 100; $4.50 per thousand; three thou-and $12 ; five thousand $18.; ten thousand $34.

Transplonted plants: $1.50 per 100; $11. per thousand; three thou-and $30.

GROUP "C"

Greater American Perfection:
(Harrold's original stroin.) Since its original introduction several years ago, by our gardens, the florist industry has been consuming several million plants of this strain annually. It is an unusally fine variety with which to supply a highly compeditive market in which price is a consideration. Mostly of the zoned type of flower marking, the range of color is exceptionally large and well balenced. The flowers are of giant size, and plant habit is excellent.

Oregon Miracle Mixed:
(Original Harrold strain.) This fine mixture is so well known as to need but brief discription. It has a fine range of color, and the flowers are of good giant size. This strain has been standard for a long time and you'll like it.

Swiss Giant:
This strain, a progeny of the original, is vary popular with some growers

Matchless:
A zoned type mixture that has enjoyed popularity in some districts.

Early Pansy America:
Recently introduced.

Strong seedling plants: 75¢ per 100; $4.00 per thousand; three $10.; five thousand $16.25; ten thousand $30.

Transplanted plants: $1.25 per 100; $10 00 per thousand; three thousand $27.50.

250 plants of a variety will be supplied at the 1000 rate. Prices on multiples of thousands between these quoted, are the same as for the next smaller quantity that is quoted.

Plant and seed list continued on next page.
